

Installation of Video Player

1) Once the installation is finished you will need to use a Token no. and a Client name that you have received on your registered email.

2) After the installation of the Video Player, the first login screen of your music player will appear, and here you will need to enter the login user name and the token no. The Dealer code field is optional. Now press the login button.

A screenshot of a web application window titled "Player". The window has a dark teal background. At the top center is a circular logo with a blue cloud and the text "MYCLAUD". Below the logo are three input fields: "User Name :", "Token No :", and "Dealer Code :". Each field has a red asterisk to its right. At the bottom right are two buttons: "Submit" and "Exit".

Player

MYCLAUD

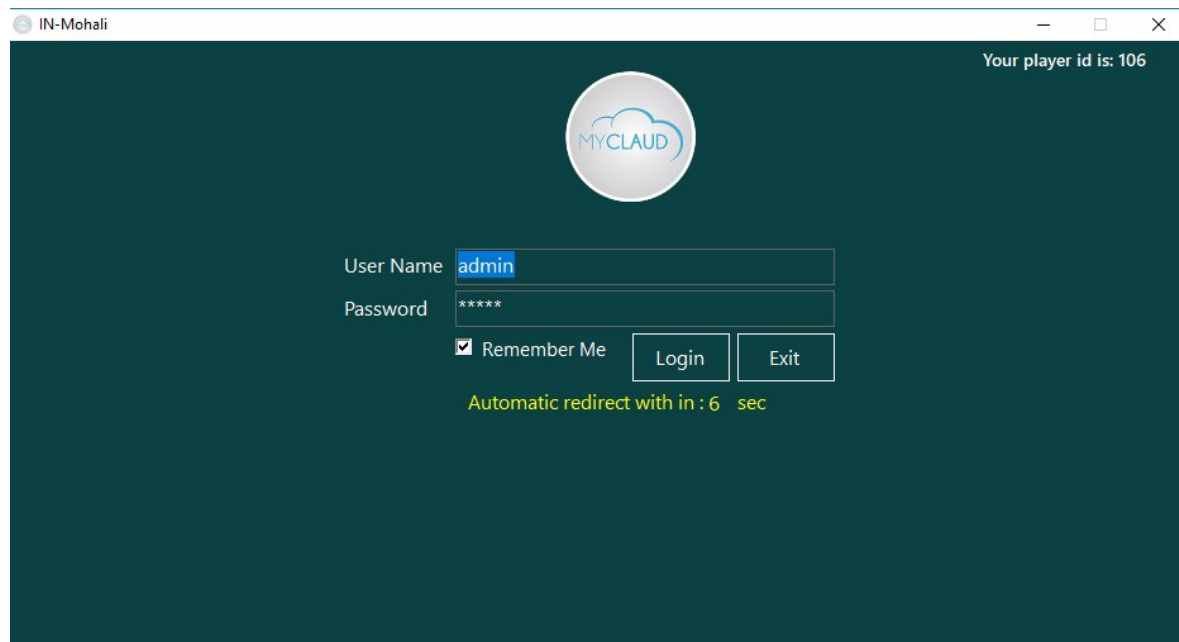

User Name : *

Token No : *

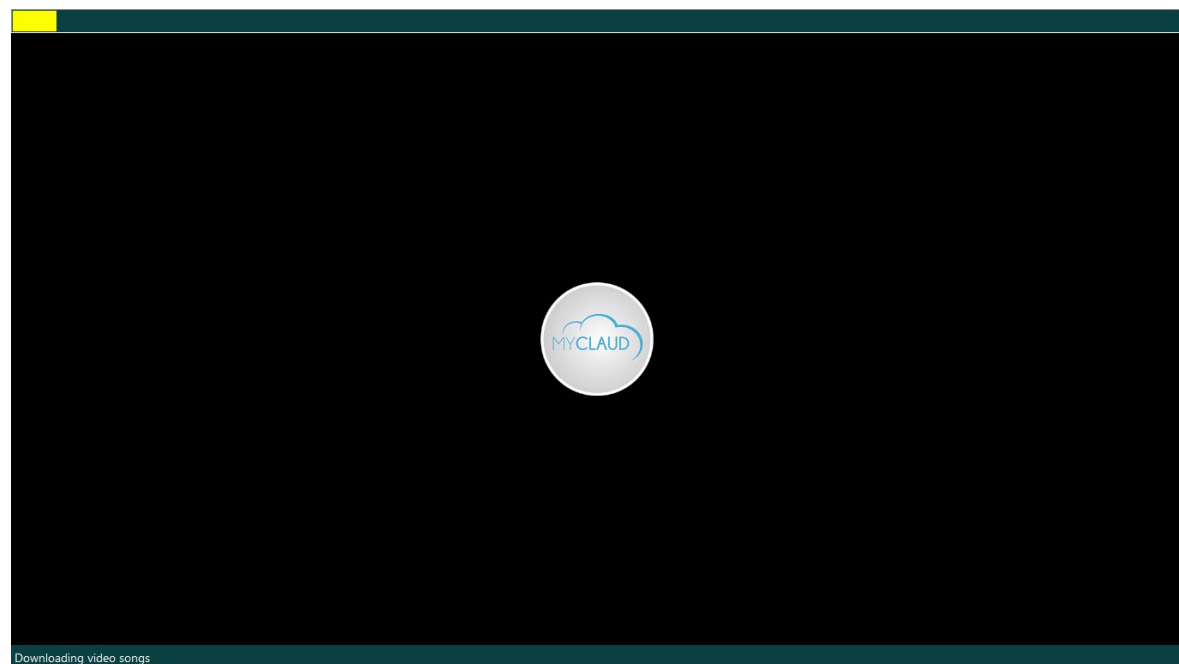

Dealer Code :

Submit Exit

3) Now the Admin login screen will appear, here you will need to enter the user name (admin) and password (admin) and tick the checkbox to remember it. Now press the login button or it's automatic redirect in 10 sec.

4) After admin login, the Video player screen will appear.

- Initially when you start the Video player then songs start download(Which playlist schedule is assigned in panel) and after one song download video start play and rest songs of playlist download in backend

Note: This is a Store & Forward video player and it's completely manage from panel.
