## Player Features

- Song fade

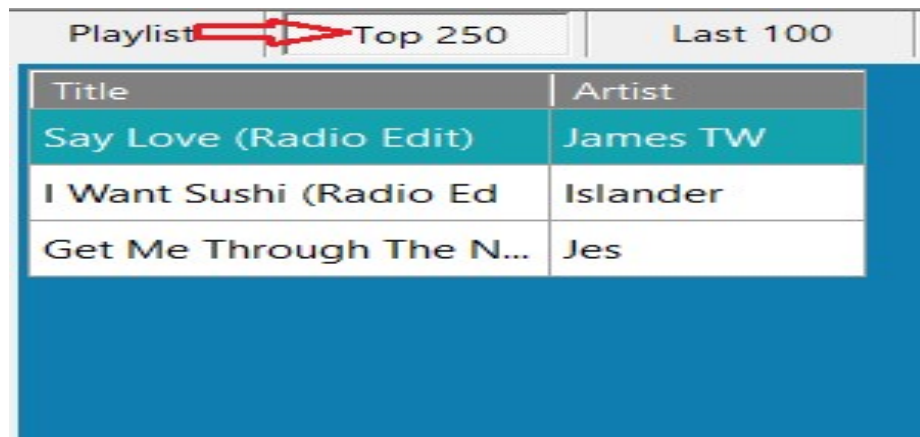

If you want to listen to the next song then click on the song fade button.

- Song shuffle

If you want to change the sequence of the songs of the selected playlist then click on the song shuffle button or use up and down arrow keys from the keyboard.

- Top 250 :

A screenshot of a music player interface showing a 'Top 250' playlist. A red arrow points to the 'Top 250' tab, which is selected. Below the tabs is a table with two columns: 'Title' and 'Artist'. The table lists three songs: 'Say Love (Radio Edit)' by 'James TW', 'I Want Sushi (Radio Ed' by 'Islander', and 'Get Me Through The N...' by 'Jes'.

Playlist		Top 250	Last 100
Title	Artist		
Say Love (Radio Edit)	James TW		
I Want Sushi (Radio Ed	Islander		
Get Me Through The N...	Jes		

When you click on (Top 250), it displays the top most played based on the songs which have the highest star rating.

You can give ratings to the current song by selecting the star symbols as shown below:

- **Last 100:**

When you click on (Last 100), it displays the most recently played songs. You can also play these songs while use drag & drop. Drag song from list and drop song in player A or Player B.

- **Event:**

When you click on (Event), it displays the list of special occasion playlists (which are assigned in panel). When you click on any playlist from the list, its corresponding songs will get appear on right side and you can play any song from list while use “Play”  button(Which near on the “Delete” button). To do so, follow the following steps:

➔ First select the song from list then click on “Play”  button. Which near on the “Delete” button.

Note: This is a Store & Forward player and it’s completely managed from panel.
