

## Installation of Copyright Player

1) Once the installation is finished you will need to use a Token no. and a Client name that you have received on your registered email.

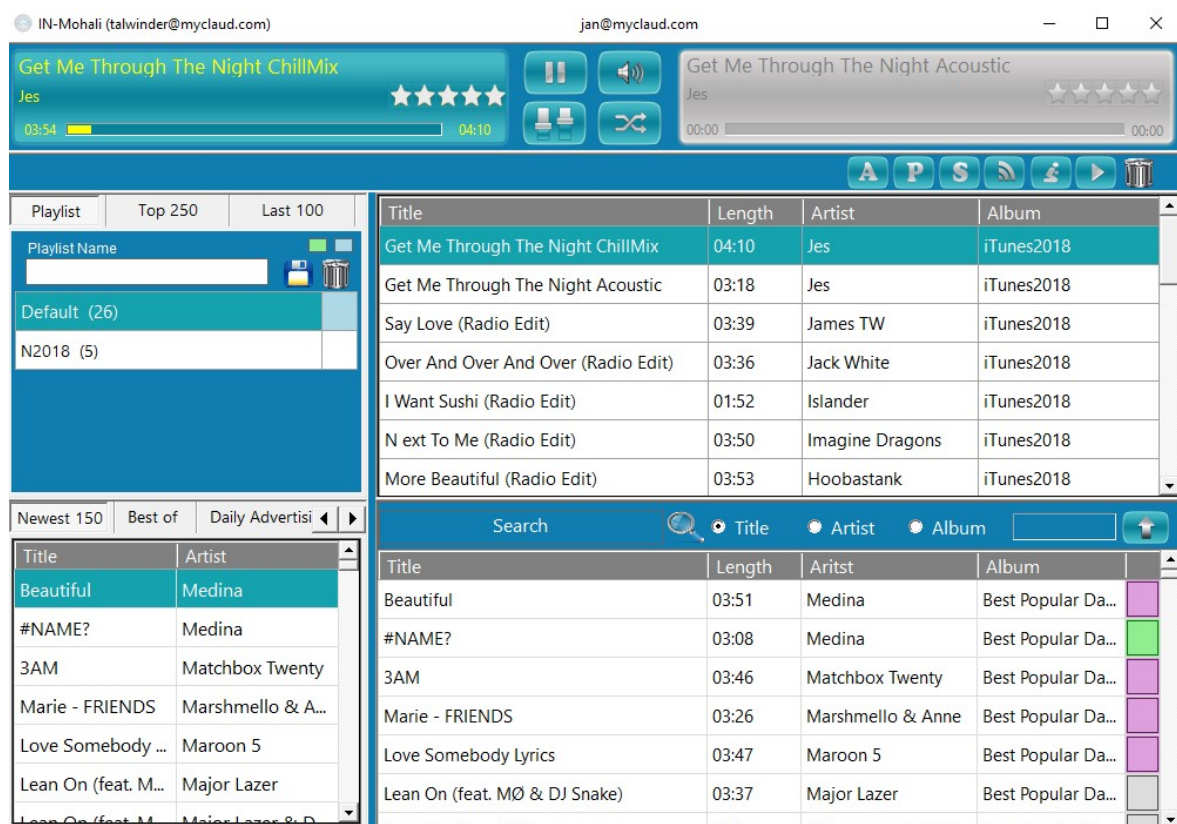

2) After the installation of the Copyright\_Player, the first login screen of your music player will appear, and here you will need to enter the login user name and the token no. The Dealer code field is optional. Now press the login button.

The image shows a screenshot of a software window titled "Music Player". The window has a blue background. At the top center, the text "Copyright Player" is written in a white, stylized, cursive font. Below this, there are three white input fields stacked vertically. The first field is labeled "User Name :", the second "Token No :", and the third "Dealer Code :". To the right of each input field, there is a small red asterisk. Below the input fields, there are two buttons: "Submit" and "Exit".

3) Now the Admin login screen will appear, here you will need to enter the user name (admin) and password (admin) and tick the checkbox to remember it. Now press the login button.

4) After admin login, the Copyright music player screen will appear.

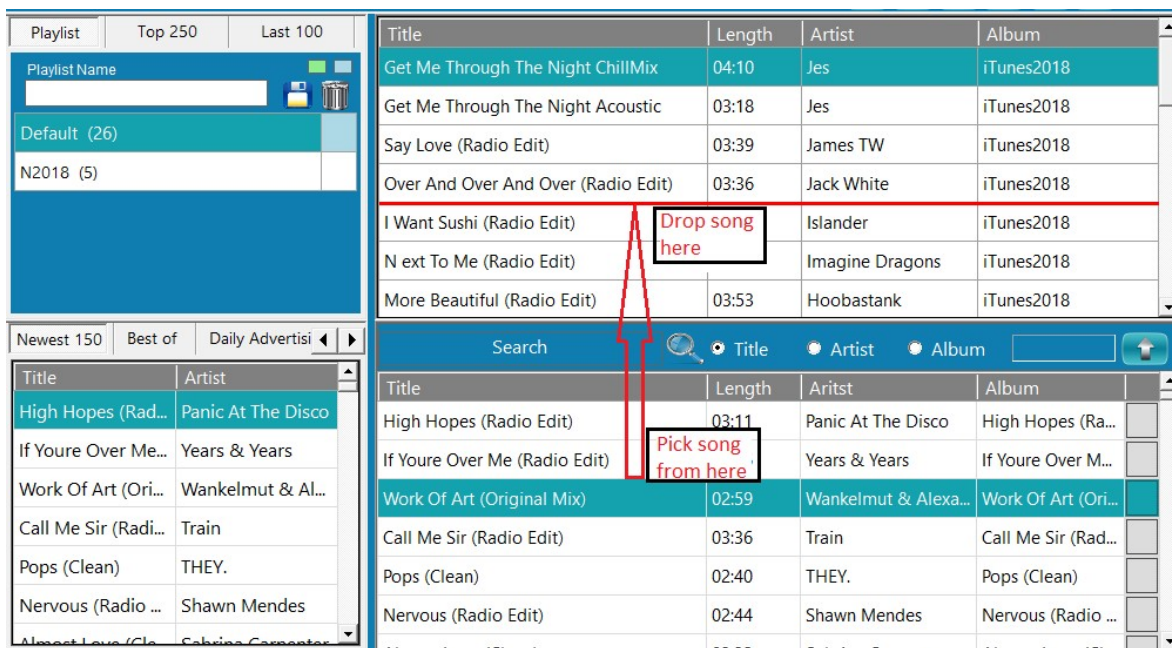

- Initially when you start the Copyright music player by default 25 songs are downloaded.
- **Sky blue colour:** Indicates that the current playlist is set as default playlist. When you start the player, it will play only the default playlist songs.
- **Green colour:** Indicates that the songs are downloaded and added to a playlist.
- **Pink colour:** Indicates that the songs are downloaded but not added in a playlist.
- **Grey colour:** Indicates that the songs are available for download.
- You can also drag and drop any song to either player A or player B.

### **Working flow of Copyright player**

- In the left side, there is a Genre block, as shown below in the fig. It contains various genres. When you click on any genre from the list, its corresponding songs will get appear on right side.
- You can also search a song by title or by artist by typing its name in the search box. After that press the enter key or the search button.

- To add one or more songs in the playlist, you need to select the songs (only 10 songs at a time) and then click on this button. . You hold one song and with the shift button it is possible to select up to 10 songs at the same time.
- You can also drag and drop (one song at a time) song into the playlist.

Drag the song up and down in the playlist following the red line to select in which position the songs should be dropped.

You can change the playlist name according your wishes. To do so, follow the following steps:

### Renaming playlist name:

- Double click on the playlist whose name you want to change.
- Now the selected playlist name will be shown in the playlist name box.
- Edit it and save it by clicking on the save button or press enter from the keyboard.

## Player Features

- Song fade

If you want to listen to the next song then click on the song fade button.

- Song shuffle

If you want to change the sequence of the songs of the selected playlist then click on the song shuffle button or use up and down arrow keys from the keyboard.

- Top 250 :

Playlist  Top 250		Last 100
Title	Artist	
Say Love (Radio Edit)	James TW	
I Want Sushi (Radio Ed	Islander	
Get Me Through The N...	Jes

Save Settings Admin Settings

## Two ways to play advertisement:

By default advertisements will play at Admin mode according to a time schedule.

1) Manual mode: You can change the sequence of the ads by using the drag and drop feature, after that you need to click on **Save settings**. The manual settings done by you will work only for that particular schedule date, which is selected by you.

2) Admin mode: In admin mode, Advertisements will play only according a time schedule. If you want the ads to be played at admin mode then click on **Admin settings**.

## Advertisement Features:

- **Ads Schedule setting:** You can do the scheduling of advertisements for upcoming dates. It works for both manual as well as for the admin mode.

**For Example:** Select a schedule date from the calendar as shown below. Now you can change the sequence of the ads by using a drag and drop feature according to your wish and save the settings. On that selected date, you will see that the ads will run according to your settings.
